

TRUFAST Disposable 2-Bead™ & 4-Bead™ Applicator Attachments

For Dow INSTA STIK® Quik Set Commercial Roofing Adhesive

2-Bead™ or 4-Bead™ Applicator Attachments Can Save You Up To 75% On Labor And 9% On Material Costs*

New Applicators Ideal for Small and Mid-size Roofing Jobs

The new TRUFAST Disposable 2-Bead and 4-Bead Applicator Attachments enable roofing contractors to easily and efficiently apply two or four lines of INSTA STIK® Quik Set Commercial Roofing Adhesive for attachment of compatible roof insulation boards to roof decks and substrates. Using either applicator, the operator simply walks while dispensing INSTA STIK Quik Set in straight, consistent beads, which improves efficiency compared to the single-bead, zig-zag pattern with the single-wand applicator. Following Dow application guidelines, a roofer can easily apply the adhesive in accurately spaced bead widths of 14 inches on center, even in tight spaces. The Dow-approved Disposable 2-Bead and 4-Bead Applicator Attachments easily connect to the standard Dow dispensing wand/valve assembly that attaches to a 23-lb. tank of INSTA STIK Quik Set.

Disposable 2-Bead & 4-Bead Applicator Advantages:

- **Inexpensive** – immediate return on investment
- **Disposable** – no maintenance required
- **Efficient** – saves up to 75% on labor and 9% on material costs*
- **Consistent** – helps ensure accurate bead spacing and aids in controlling bead width of 3/4" to 1" as required by Dow
- **Easy to Use** – requires no special training
- **Lightweight** – won't damage substrates; reduces operator fatigue

Improve the efficient application of INSTA STIK Quik Set with a low-cost solution from TRUFAST: Disposable 2-Bead and 4-Bead Applicator Attachments!

2-Bead Applicator Attachment:

Part No. IS2D

4-Bead Applicator Attachment:

Part No. IS4D

Designed for use with Dow INSTA-STIK Quik Set Dispensing Wand & Coupler (Part No. 238581) and 4' Dispenser Hose with On/Off Valve (Part No. 180607)

*Labor and material savings based on applying two or four evenly spaced beads in a straight line vs. dispensing a single zig-zag pattern.

Dow Multi-Bead Applicator

*For Efficient Commercial Roofing
Adhesive Applications*

Speeds Application in Mid-size to Large Roofing Jobs

Distributed by TRUFAST, the Dow Multi-Bead Applicator helps roofing contractors complete medium to large jobs faster with less labor and greater application accuracy. Using up to three 23-lb. tanks of INSTA STIK Quik Set adhesive connected to a central inlet manifold, a single operator can simultaneously dispense four or eight accurately spaced beads, as per Dow application guidelines. By simply rolling the lightweight cart across the work surface, more squares are covered in less time as compared to manual application with a dispensing wand.

Advantages of the Dow Multi-Bead Applicator:

- **Efficient** – one operator can apply four or eight beads of adhesive simultaneously, resulting in a 75% to 150% labor savings*
- **Consistent** – adhesive is applied in accurately spaced beads to ensure proper adhesion
- **Easy to Use** – well-balanced design with operator-friendly controls; requires minimal training
- **Lightweight** – just 78 lbs./35.4 kg. (cart only); easy to transport
- **Versatile** – adjustable outlet tubes easily accommodate variable adhesive pattern requirements
- **Economical** – attractively priced, with quick payback in material and labor savings*
- **Convenient** – supplied dispensing tube end-plugs allow for application interruptions and short term storage

The Dow Multi-Bead Applicator cart saves manpower, time, material and allows you to increase your efforts without losing the precision and detail of single-wand applications. Stop wasting valuable working hours and call TRUFAST today.

Multi-Bead Applicator (Cart Assembly): **Part No. 158414**

*Compared with the hand-held hose wand assembly

The Dow Multi-Bead Applicator cart allows a single operator to quickly apply four or eight beads of adhesive, accurately spaced and evenly dispensed.
